ZIPPER FOOT

3 LB POLY-FIL – please check unitednotions.com and brewersewing.com for the best item to order. United can be free freight while Brewer is usually freight intensive with batting/stuffing. There are mostly 12 oz bags, let me know if you find something else. Most on United are to order a minimum of 2 but some are minimum of 24. Lead me in the right direction and I will help narrow it down.

3 YDS CORDING (6/32 OR 7/32)

We are pleased to continue Sewing 1 on 1 with Brenda! For any class which requires the use of a machine we strongly suggest taking advantage of this tutoring session which is FREE with a paid class. Brenda is available by appointment to meet with you and your machine and make sure you are familiar and comfortable enough with it to help you and everyone in your class have a productive and successful time. We have listened to both students and teachers and have heard students talk about frustration from fighting with their machines and teachers not knowing how to help. We feel with this short tutoring session, you and the teacher can concentrate on the technique or project at hand and not worry about winding bobbins and threading needles!

In the interest of safety, instructors will lock the doors for evening classes 15 minutes after the starting time. Please make every effort to arrive early enough to allow for set up in order that class may begin on time. The instructors cannot hear the knocking on the door in the classroom. Please do not hesitate to call before closing if you know you will be running late.

A policy reminder: to receive store credit for a class, you must cancel **at least 48 hours before** your class begins. Our teachers depend on class enrollment to prepare for class.
